**S.C.A.N. Needs YOUR  
Help!!!**

June 21 S.C.A.N. will be holding its Second Annual Fundraising Auction & Dance. We are asking that everyone mark their calendars and plan on attending. We have some wonderful items to bid on, including: 4-1 day parkhopper passes from Disney in FL; Branson, KC & St. Louis attractions; purses; a Cardinals light cube by Kristy; and much more.

The auction will start at 5 pm with the doors opening at 4. We will have a Cake Walk (before auction), raffles (throughout the night), concessions (throughout the night) and dancing (following the auction). This will be a fun, family friendly event.

If you could donate an item for this event call Terry (417) 718-7081 or Heather (417) 718-7272. Homemade baked goods, quilts and woodcrafts a just a few examples of items that are very popular with auction goers. Your help would be appreciated and is tax deductible.

S.C.A.N.'s motto says it all:

**" All children are special, ours just have additional needs"**

S.C.A.N. now has their Education & Activity Center open where families can work hands on with their children on therapeutic activities. We can now offer Mommy & Me classes, Money & Time classes, Homework Swap, Garden Club, Drama Club and various forms of technology for children to engage in educational activities. It's all about supporting our children and their families, bringing awareness of various diagnoses to the community and supporting the inclusion of our children through our various programs in the community.

Thanks for your Help!

follow us on facebook activities as they  
become available.

SCAN  
Ribbon Run  
For  
Inclusion

Mark your calendars for May 10!

S.C.A.N. will be holding its first ever Ribbon Run for Inclusion. The benefits from this Fun Run/Walk 5k will help fund programs ran by S.C.A.N.

S.C.A.N. is an all-inclusive support group that does not discriminate based on diagnosis. We accept them all. We also do not discriminate based on age because cognitive age is what really matters. We strive to serve the whole family through our programs.

We believe that all children should have the chance to interact together because we can all learn from each other.

## Raising Awareness! Focus on: Celiac Disease

Celiac disease -- also known as celiac sprue or gluten-sensitive enteropathy -- is a digestive and autoimmune disorder that results in damage to the lining of the small intestine when foods

with gluten are eaten. Glutens are a form of protein found in some grains. The damage to the intestine makes it hard for the body to absorb nutrients, especially fat, calcium, iron, and folate.

### What Causes Celiac Disease?

Normally, the body's immune system is designed to protect it from foreign invaders. When people with celiac disease eat foods containing gluten, their immune system forms antibodies to gluten which then attack the intestinal lining. This causes inflammation in the intestines and damages the villi, the hair-like structures on the lining of the small intestine. Nutrients from food are normally absorbed by the villi. If the villi are damaged, the person cannot absorb nutrients properly and ends up malnourished, no matter how much he

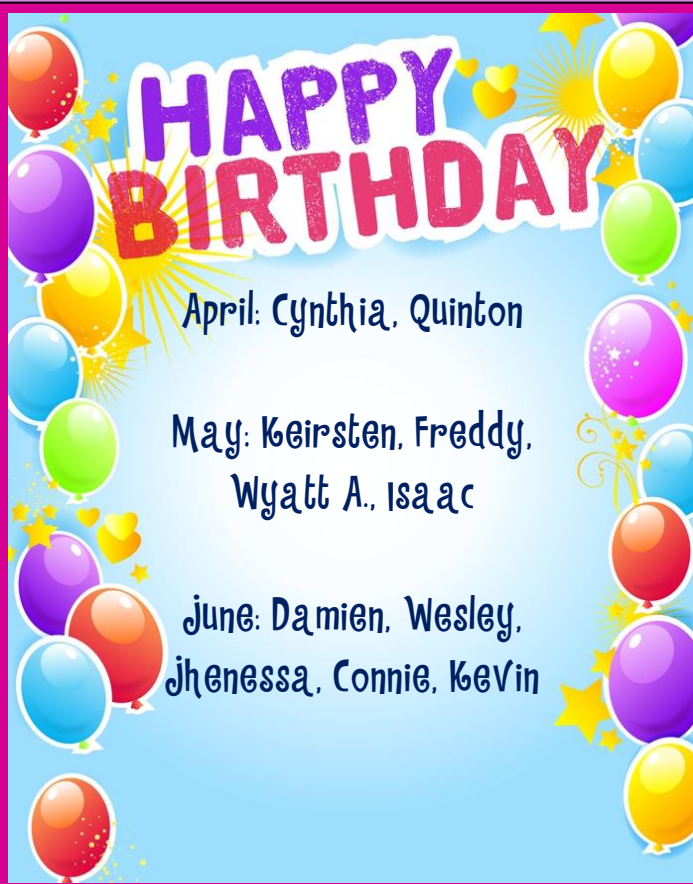

or she eats.

### Symptoms of celiac disease vary among sufferers and include:

- Digestive problems (abdominal bloating, pain, gas, diarrhea, pale stools, and weight loss)
- A severe skin rash called dermatitis herpetiformis
- Iron deficiency anemia (low blood count)
- Musculoskeletal problems (muscle cramps, joint and bone pain)
- Growth problems and failure to thrive (in children)
- Seizures
- Tingling sensation in the legs (caused by nerve damage and low calcium)
- Aphthous ulcers (sores in the mouth)
- Missed menstrual periods

### Information from:

S.C.A.N. has been blessed enough to find a bigger facility.

As of June, we will be in a 3,000 square foot facility located at 250 East Elm. This is the old NAPA building where All About Beauty is currently located.

This facility will allow us to have more a gym atmosphere which was Terry's original vision. There will be greater opportunities at this facility.

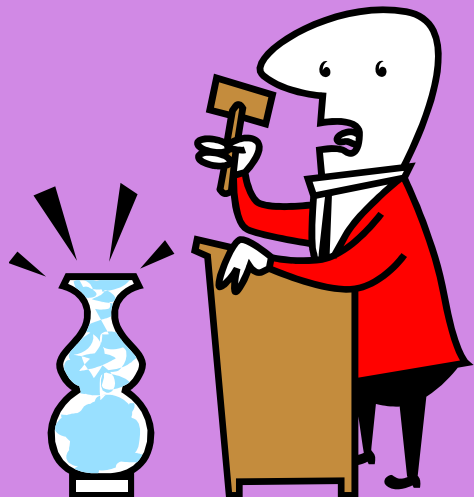

Watch our events more details on our Grand

Re-Opening!
